10*5mm clear adhere rubber feet Pad Specification Sheet

(LINER on the top and with ADHESIVE on the bottom.)

1. Features and uses:

- (1) Sensitive circuits and components to improve reliability, extend service life.
- (2) Insulation, moisture, shock, shock.
- (3) Environmental non-toxic products. Weather resistance, chemical corrosion. Outdoor use of UV-free, ozone, water and the adverse effects of chemicals.
- (4) Has outstanding resistance to high and low temperature performance, -30 °C - +200 °C temperature range to maintain good use
- (5) Use pressure pressure <1.2MPa
- (6) Application: widely used in electronic Communication, DVD/VCD/MP3 / Bluetooth mobile phone accessories, machinery parts, all kinds of household appliances, industrial instruments, computers and peripheral equipment, car parts, audio-visual equipment, toys, gifts, medical equipment , sports equipment and other products such as insulation and earthquake slip function. Our company can according to customer specific requirements (sample or design) specifications of products made of various shapes. applicable scope: electronic factory, toy factory, lamp and electrical plants, arts and crafts factory, furniture factory.

2. Main performance:

Item No.	Test Project	Technical Requirements
1	Size	10*5mm clear adhere rubber feet
2	Material	Silicone White Transparent
3	Color	transparent
4	UV exposure grade	UL94 V-0
5	Duro hardness	Shore A 60

2.1 Basic physical and chemical properties.

- (1) Surface color: Transparent;
- (3) Density(25°C) > 0.5
- (4) Solubility: Hard;
- (5) Flammability: Hard;
- (6) Volatile: None;
- (7) Flash point: 145 °C (closed)

(8) Burning Point:> 300 °C

2.2 Hazardous Profiles:

(1)Skin corrosion: None;

(2)Eye irritation: None;

(3)Skin irritation:None;

(4)Impact on the environment: high-temperature combustion of the chemicals on the environment and human and livestock without toxic effects.

2.3 Abandoned when the attention of:

(1)Without hardening treatment may be burned;

(2)Be buried after hardening treatment.

Note:

(1) This article is contained in the information I believe to be reliable, the product description data is for the non-standard value. Recorded content, products, performance improvement, product specifications without notice may be changed circumstances.

(2) Our only product to ensure compliance with specifications, when used, must first be tested to confirm the purpose of use for your product.

(3) The company's silicone rubber products are developed for general industrial use.

(4) This product has been SGS and FDA environmental protection certification
